SERVICES HIGHLIGHTS

Seacraft Shipyard is pleased to announce that we have been awarded a \$1.1m grant by MARAD towards the purchase of a new 400 ton Marine Travelift which will be delivered, set up and ready to work in early spring of 2014.

The new 400 ton x 44' wide Travelift represents a significant increase in the width and weight of vessels it can lift compared to our current 150 ton x 30' wide Travelift. The new 400 ton Travelift will enable Seacraft to pick up every crew boat both currently in operation as well as all crew boat designs currently on the drawing boards at all the new construction yards. It will also allow us to handle utility boats, inland tugs, inland river barges, mini supply vessels, and offshore tugs and set them on the ground in our yard for a safer, more competitive work environment.

Keep in mind we still have our 150 ton Travelift, 1200 ton drydock, and 800 ton drydock to service your present needs while waiting on our new 400 ton Travelift.

Seacraft is a 24 hour a day, 365 day a year, full service shipyard that since 1955 has been repairing, refurbishing, and converting aluminum and steel oilfield vessels.
